

2017 PORTFOLIO OF PROJECTS

INTRODUCTION

ITF Enhancing Human Security's Portfolio of Projects for 2017 is a strategic collection of projects in 22 countries/territories and the region of West Africa ITF has developed with its field partners and/or respective national or regional authorities. The Portfolio includes projects with already confirmed full funding, projects that require partial funding and projects that are not yet funded.¹

The purpose of the Portfolio is to provide an overview of ITF's varied capacities and capabilities, as well as the needs of beneficiary countries/territories it has recognized and seeks to address. With partial or full implementation of the Portfolio ITF will promote enhanced human security in post-conflict and developing countries/territories affected by landmines/explosive remnants of war or other impacts from conflict. Thereby, ITF will address a number of salient issues faced by affected societies, and advance its [Strategy](#) by following its established [guiding principles](#).

ITF Portfolio of Projects 2017 includes 61 projects in the total amount of more than 48 million USD. As a dynamic and ever-changing compilation the Portfolio can serve as a cornerstone for the development of new project ideas by interested parties. ITF therefore encourages partners, donors, affected countries, (potential) beneficiaries and other interested parties to use the Portfolio as a resource for reasonable use of available resources or funding opportunities.

Upon request ITF will gladly make available more details on each of the envisaged projects, including the background information on the targeted countries/territories and project rationale.

¹ Information on funding availability is provided for each project under the column Project Cost in USD (total) & Funding Availability, and is marked as one of the following three categories: FULLY FUNDED, PARTIALLY FUNDED, NOT FUNDED.

PROJECTS PLANNED FOR 2017 BY REGIONS/COUNTRIES

Serial no.	Country	Project Description/Title	Overall Project Dates	Project Cost in USD (total) & Funding Availability	Project Summary/Objective
SOUTH EAST EUROPE					\$15,015,458
1	ALBANIA	UXO Hotspots Clearance in Albania	2017	\$1,608,000 [FULLY FUNDED]	The primary goal of the project is to reduce the threats to civilians of explosive remnants following the unplanned explosions in so-called hotspot areas, specifically through clearance of these areas. In 2017, the clearance completion phase will be conducted by ITF implementing partners in Sinanaj and Jube Sukth hotspots.
2		Follow-up Physical Rehabilitation of Two Amputee Survivors in Albania, Classified as Difficult Cases	2017	\$55,887 [FULLY FUNDED]	The project objective is to improve the physical and social conditions of two amputee survivors, classified as difficult cases that cannot be treated in Albania, and to assist in the physical rehabilitation of the two amputees. They will undergo rehabilitation at University Rehabilitation Institute Republic of Slovenia – Soča.
3		Procurement of Raw Materials and Components for the Prosthetic Workshop of Kukës Regional Hospital	2017	\$44,222 [FULLY FUNDED]	The project objective is to improve healthcare and social conditions and services for mine/UXO survivors and other disabled and amputees through the provision of supplies to Kukës Hospital for Prosthetic Workshop and to assist in the physical rehabilitation of mine/UXO and other amputees in need. The project foresees the supply of raw materials, components and equipment for the Prosthetic Workshop at Kukës Regional Hospital.

4	ALBANIA	Ammunitions Disposal	2017	\$400,000 [FULLY FUNDED]	Surplus arms and munitions stocks can represent a physical and environmental hazard once they deteriorate. They can fall prey to diversion, whether by loss or theft, ultimately falling into the hands of non-state armed groups and criminals. The project aims to ensure safe storage of ammunition and the destruction of insecure surpluses, promises positive effects for public health, economic development, and reduces the illicit transfer of arms and munitions.
5		Supporting Socio-Economic Reintegration of UXO/ERW Survivors of Albania through Vocational Training	2017	\$65,000 [FULLY FUNDED]	The project objective is to increase employment and business opportunities for families of UXO/ERW survivors of Albania by supporting them to improve their professional/entrepreneurship and business skills through vocational training.
6		Supporting Socio-Economic Integration of UXO/ERW/AXO Victims through Higher Education Scholarships Provision	2017	\$20,000 [NO FUNDING]	This project supports better inclusion of UXO/ERW/AXO victims and their family members into higher education, and thereby into social life. Providing scholarships to at least 10 Albanian students that are either UXO/ERW/AXO victims or their family members will bring prospects of securing (better) jobs and providing much-needed income for otherwise still marginalized families.
7	BOSNIA AND HERZEGOVINA	Demining Programme	2017	\$4,000,000 [PARTIALLY FUNDED]	Through this programme safe environment for the population of Bosnia and Herzegovina will be achieved in line with the national mine action plan of Bosnia and Herzegovina (in coordination with Bosnia and Herzegovina Mine Action Centre, ITF and donors). Demining operations on approximately 100 demining locations throughout BiH will be carried out, following the tendering procedure (approximately 2,000,000 square meters).

8	BOSNIA AND HERZEGOVINA	Technical Survey Programme	2017	\$4,000,000 [PARTIALLY FUNDED]	Through this programme safe environment for the population of Bosnia and Herzegovina in terms of accessibility, use of land, safe movement will be achieved in line with the national mine action plan of Bosnia and Herzegovina (in coordination with Bosnia and Herzegovina Mine Action Centre, ITF and donors). Technical survey operations on approximately 50 technical survey locations throughout BiH will be carried out, following the tendering procedure (approximately 3,000,000 square meters).
9		Assessment of BiH Accredited Demining Companies and Organizations – QSI Ltd.	2017	\$100,000 [FULLY FUNDED]	This project aims at ensuring that demining organizations and companies, which apply to ITF tenders maintain high and satisfactory standards of organization, equipment and quality of field work.
10		Support to BiH Army Demining Teams with required Demining Equipment	2017	\$50,000 [FULLY FUNDED]	The goal of this project is to provide support to the Bosnia and Herzegovina Army demining teams with required technical equipment required for continuation of high standards of demining field works.
11		Support to Civil Protection Demining Units with required Demining Equipment (Federation BiH and Republic of Srpska)	2017	\$50,000 [FULLY FUNDED]	The project goal is to provide support to the Civil Protection Demining Units of Federation BiH and Republic of Srpska Civil Protection with new demining technical equipment required for maintaining high standards of demining field works.

12	BOSNIA AND HERZEGOVINA	Landmine/UXO Survivors Scholarships	2017	\$25,000 [NO FUNDING]	The specific objective of the project is to provide higher education scholarships to approx. 20 mine/UXO victims or mine victims' family members from all over Bosnia and Herzegovina. Scholarships will enable them to complete higher education and thereby increase their competitiveness in the labour market. In order to achieve the specific objective, the key principle of the proposed project is to focus on capabilities, and not disabilities of mine/UXO victims.
13		Rehabilitation of Mine and UXO Victims from Bosnia and Herzegovina	2016–2017	\$100,000 [FULLY FUNDED]	The project goal is to make and fit limbs for as many as possible landmine victims and disabled citizens (citizens harmed by the war or as a direct result), regardless of their gender, religious beliefs or socio-economic profile.
14		Demine App	2017	\$300,000 [NO FUNDING]	Demine App – a life saving smart phone application shall be produced using precise GPS mapping of mine-contaminated areas in Bosnia and Herzegovina.
15		School Mediation in one Municipality of Federation BiH and one Municipality of Republic of Srpska, Bosnia and Herzegovina (Pilot Regional Project)	2017	\$200,000 [NO FUNDING]	The overall objective of the project is to enable an environment prone to improving inter-ethnic and inter-cultural dialogue, reconciliation and reintegration in one Municipality in the Federation BiH and one Municipality in the Republic of Srpska.
16		Improved Mental Health, Education and Employability for Vulnerable Individuals and Groups	2017	\$120,000 [NO FUNDING]	The overall project objective is, firstly, to support vulnerable individuals and groups who have been deprived of their human rights to become empowered to claim those rights with respect to their mental health, education, and employment. Secondly, it aims to support duty-bearers such as parents, mental health professionals, education professionals, and civil servants to develop their capacity to secure and promote human rights.

17	BOSNIA AND HERZEGOVINA	Living in Transition – A Documentary Film Project About Life in Collective Centres in Bosnia and Herzegovina	2017 (8 months)	\$6,900 [NO FUNDING]	The main objective is to raise awareness and contribute to the resolution of the situation of people living in temporary accommodation at collective centers in Bosnia and Herzegovina. From those internally displaced during the war, over 7,500 are still accommodated in these centers across the country.
18	CROATIA	Mine Clearance: Demining/Mine Search Activities	2017	\$50,000 [FULLY FUNDED]	Within this project, approximately 50,000 square meters of land will be returned to local population. The mine clearance/mine search operations will be conducted on locations identified by Croatian Mine Action Centre.
19		Conventional Weapons Destruction	2017	\$1,111,289 [FULLY FUNDED]	Significant stockpile of unstable and old ammunition poses a threat to civilian population and hazard to property in the vicinity of ammunition depot. By reducing the amount of such ammunition the risk will be reduced as well.
20		Physical Security Stockpile Management (PSSM) – Ministry of Defence	2017	\$1,117,160 [NO FUNDING]	The project is aimed at improving conventional weapons and munitions stockpile security and management in warehouses operated by the Ministry of Defence of the Republic of Croatia (MORH) in accordance with plans for physical security and in accordance with plans provided by MORH. The project's main purpose is to improve the management process as well as systematic and infrastructural aspects of physical security stockpile management.
21		Physical Security Stockpile Management (PSSM) – Ministry of Interior	2017	\$1,035,000 [NO FUNDING]	ITF will engage in renovation works on four warehouse buildings at the Ministry of Interior complex in Croatia and procure personal protective equipment for the Ministry of Interior forces.

22	SERBIA	Land Release Operations in the South of Serbia	2017	\$400,000 [NO FUNDING]	The project envisages land release of mine suspected areas on the location of Turijsko brdo in the Municipality of Bujanovac (South Serbia), through which approximately 400,000 square meters of land will be returned to local population. The majority of mine clearance and mine search operations will be conducted on locations identified by Serbian Mine Action Centre.
23	KOSOVO* <i>*This designation is without prejudice to positions on status, and is in line with UNSCR 1244 and the ICJ opinion on the Kosovo declaration of independence</i>	Multiethnic Psycho-social Seminars for Teachers	2017	\$51,000 [NO FUNDING]	The proposed project aims to provide psychosocial seminars for teachers of various ethnic groups, in the region of Mitrovica. Organizing multiethnic seminars for teachers is an important step in peace and cooperation building and in fulfilment of standards concerning the respect of minorities, required from Kosovo*, as the targeted group (school teachers) has an important opinion-making function in their communities.
24		Voluntary Work uniting Children and Youth of Different Ethnicities	2017	\$35,000 [NO FUNDING]	The aim of the project is to contribute to stability through bringing youth of different ethnicities together in the framework of voluntary activities and reflection – discussion groups. The program shall be developed in multiethnic areas of Kosovo*.
25		Socio-economic Rehabilitation and Reintegration of Mines and UXO Survivors	2017	\$51,000 [NO FUNDING]	The project will provide assistance to mine and UXO survivors who live in extremely poor economic condition and without required support. It is aimed at improving the social, economic, health and mental health situation of mine/UXO survivors in Kosovo* through mobilization of institutional and civil society resources for helping people in distress and their families, and by empowering survivors for pro-active behaviour in controlling their life and becoming active members of their communities.

<p>26</p>	<p>KOSOVO* <i>*This designation is without prejudice to positions on status, and is in line with UNSCR 1244 and the ICJ opinion on the Kosovo declaration of independence</i></p>	<p>Higher Education for Social Inclusion of Mine/ERW Victims</p>	<p>2017</p>	<p>\$20,000 [NO FUNDING]</p>	<p>The project is designed to improve access of surviving mine/ERW victims in Kosovo* and their family members to higher education. By being able to access and finish higher education process, 15 mine/ERW victims (or their family members) would begin to be better integrated into the society and would be given the possibility to become fully active social agents with increased employment prospects. Thus, the project prioritizes the rights of persons with disabilities and their full socio-economic integration.</p>
-----------	---	--	-------------	---	---

EASTERN EUROPE					\$6,335,000
27	BELARUS	Psycho-Social and Medical Rehabilitation of Children from Belarus	June 2017–October 2018	\$45,000 [FULLY FUNDED]	The primary purpose of the project is to enable rehabilitation and thereby improve the health of Belarusian children who are suffering from medical diseases due to the Chernobyl disaster of 1986. Large amounts of radioactive materials were released during an explosion in Chernobyl nuclear power plant, threatening Ukraine, Belarus and Russia. As a consequence, many children face illnesses of the respiratory, musculoskeletal, and cutaneous systems.
28	UKRAINE	Equip and Train Program for State Emergency Service of Ukraine (SESU) Clearance Teams	2017	\$4,185,000 [NO FUNDING]	The aim of the project is to equip six mine/ERW clearance teams and train them in line with IMAS standards, so that they would be able to safely and effectively execute clearance works in Donbass regions. Through enhanced national clearance capacities, the threats to human security posed by the legacy of armed conflict will be reduced.
29		Establishment of Mine Detection Dog Program in Ukraine	2017	\$550,000 [NO FUNDING]	With six mine detection dog teams deployed, the national clearance capacities shall be enhanced and the threats to human security posed by legacy of armed conflict shall be indirectly reduced. The project includes establishment of mine detection dog teams and initial field supervision conducted by foreign experts when the teams are deployed on tasks.
30		Clearance of Landmines, Cluster Munitions and other Explosive Remnants of War in Donbass Region	2017	\$500,000 [NO FUNDING]	Once the preconditions are met (stable security situation and existing national mine action authority), areas that are to be cleared shall be prioritized, and initial survey/clearance activities implemented to ensure safe environment for the population in terms of accessibility, use of land and movement.

31	UKRAINE	Structure Support to Ukrainian National Mine Action Center	2017	\$250,000 [NO FUNDING]	The key aim of the project is to support the Ukrainian National Mine Action Center as the body responsible for the management and coordination of mine action activities in Ukraine, once it is established. Capacity building, extensive trainings and exchange of experience will be provided in support of this matter. Enhanced national clearance capacities shall consequently lead to reduced threats to human security posed by the legacy of armed conflict.
32		Physical Rehabilitation of Children – Victims of Armed Conflict	2017–2018	\$300,000 [PARTIALLY FUNDED]	At least 12 to 15 children that were injured during the conflict shall be physically rehabilitated which will make a significant difference in their lives and contribute to their reintegration into the community. Additionally, one rehabilitation team is trained to enhance local rehabilitation capacities.
33		Enhancing Psychosocial wellbeing of Children – Victims of Armed Conflict	2017–2018	\$120,000 [FULLY FUNDED]	Psychosocial wellbeing of at least 120 children that were severely traumatized during the war atrocities (loss of close relatives, home, belongings) shall be enhanced through participation in specialized rehabilitation camps.
34		Mine/UXO Risk Education and Promotion of Safe Behaviour	2017	\$385,000 [NO FUNDING]	The aim of this project is enhanced safety at community level and reduced risk of death and injury for population residing in conflict affected areas in Donbass region through the implementation of risk education program with the outreach of up to 10,000 children and adults directly and 30,000 indirectly (annually).

SOUTH CAUCASUS					\$16,240
35	ARMENIA	Mine Risk Education Capacities in Armenia	2017	\$16,240 [PARTIALLY FUNDED]	The project goal is to develop procedures and Standard Operational Procedures for conducting mine risk education (MRE) activities in Armenia within the Armenian Center for Humanitarian Demining & Expertise (CHDE) in accordance with IMAS and positive practices Deliver and Advanced MRE course to CHDE staff.

CENTRAL ASIA					\$4,899,352
36	AFGHANISTAN	Capacity Support to Mine Action Coordination	October 2016–September 2017	\$1,429,352 [FULLY FUNDED]	The objective of this project is to develop sustainable, indigenous capabilities, and promote economic stability and regional security through the support of Afghanistan National Disaster Management Authority – Directorate for Mine Action Coordination (ANDMA-DMAC).
37		Quality Assurance and Quality Control of Firing Ranges	February 2017–January 2018	\$2,650,000 [FULLY FUNDED]	Within the framework of this project external Quality Assurance/Quality Control (QA/QC) and Certification of former Coalition High Explosive Training Ranges shall be executed through the expansion of QA/QA cell within DMAC.
38		Humanitarian Support in the Field of Rehabilitation – MDC Polyclinic in Kabul	2017–2018	\$220,000 [PARTIALLY FUNDED]	Communities shall be assisted in having free access to basic health services and being able to provide medical services to marginalized social groups (women, children and war victims). Thereby, the needs in accessing quality rehabilitation services for victims in Afghanistan shall be met.
39	KAZAKHSTAN	Enhancing Industrial Demilitarization and Ammunition Surveillance Capacities of Kazakhstan	2017	\$60,000 [NO FUNDING]	Threats to human security shall be reduced through enhancement of industrial demilitarization and ammunition surveillance capacities in Kazakhstan by applying new technologies for certain ammunition types (containing white phosphorous, RDX, etc.).
40	KYRGYZ REPUBLIC	Conventional Weapons Destruction Program – Phase 2	December 2016–December 2017	\$250,000 [NO FUNDING]	The project aims to reduce the threats to human security through the disposal of outdated, unserviceable and hazardous for storage ammunition in Kyrgyz Republic (using industrial demilitarization), including capacity building and upgrade of outdated ammunition warehouses.

41	MONGOLIA	Conventional Weapons Destruction Program	2017	\$200,000 [NO FUNDING]	The objective of the project is to contribute to the reduction of threats to human security through disposal of outdated, unserviceable and hazardous for storage ammunition in Mongolia (using industrial demilitarization), including capacity building.
42	REGIONAL ACTIVITIES IN CENTRAL ASIA	Technical Cooperation on Enhancing Physical Security, Stockpile Management and Demilitarization Capacities in Central Asia	2017	\$90,000 [NO FUNDING]	The project aims to foster a safer environment for population of Central Asia, ensured through the exchange of experience/best practices and consequently enhanced national capacities of Central Asian states as related to physical security of ammunition warehouses, stockpile management and demilitarization (focus on industrial method).

MIDDLE EAST					\$11,748,282
43	GAZA STRIP	Humanitarian Support in the Field of Rehabilitation	2017–2018	\$165,000 [FULLY FUNDED]	The project goals are to provide psycho-social aid for the victims of recent conflicts and the continuous siege; to provide effective rehabilitation treatment for victims of conflicts as well as other disabled people in Gaza Strip; and to deliver Prosthetic and Orthotic components to selected rehabilitation institutions in Gaza.
44	IRAQ	Clearance of Explosive Remnants of War in ISIL Liberated Areas	2017	\$5,709,413 [NO FUNDING]	The primary objective of the project is a humanitarian one, namely the recreation of an environment where people can live safely, where the refugees and IDPs are able to return to, where victims' needs are addressed, and where economic and social development can occur free from constraints posed by landmines and other ERW.
45	LEBANON	Clearance of Cluster Bombs and other Explosive Remnants of War (ERW) in Southern Lebanon	2017	\$2,000,000 [NO FUNDING]	Cluster munitions, landmines and/or other ERW shall no longer expose civilians to unacceptable risk or prevent economic, social and political development in Lebanon. Approximately 432,000 to 648,000 square meters of land shall be cleared through the project. Released land will be returned to primary owners for their socio-economic use and will prevent further accidents and victims.
46		Clearance of Landmines and other Explosive Remnants of War (ERW) along the Blue Line in Lebanon	2017	\$400,000 [NO FUNDING]	Use of land is increased and direct risk for the local population is reduced through initial landmine/ERW clearance along the Blue Line – identified as the line of withdrawal by the United Nations in 2000. Approximately 42,000 to 84,000 square meters of contaminated land along the Blue Line is anticipated to be cleared and returned to the community for safe and productive use.

47	LEBANON	Assistance to Victims of Landmines, Cluster Munitions and other Explosive Remnants of war (ERW)	2017	\$380,000 [NO FUNDING]	Altogether, approximately 50 victims of landmines, cluster munitions and other ERW shall be rehabilitated (10) and shall receive income generating support (20) and psychosocial assistance (20) which will make a significant difference in their lives and the lives of their entire family. Additionally, it shall contribute to their reintegration into the community.
48		Workshop on Enhancing Local Physical Rehabilitation for People following Amputations	2017	\$70,000 [NO FUNDING]	Rehabilitation services provided in Lebanon to the victims of landmines, cluster munitions and other ERW shall be improved and enhanced through specialized training for multidisciplinary rehabilitation teams.
49		Raising Awareness regarding Threats Posed by ERW to the most Vulnerable Groups	2017	\$350,000 [NO FUNDING]	Through the implementation of risk education activities enhanced safety at community level and reduced risk of death and injury for local population and refugees residing in conflict affected areas in Lebanon shall be achieved.
50		Psychosocial Support and Basic Education for Syrian refugees in Lebanon, with emphasis on Children and Adolescents – Support for the Center For Psychosocial and Educational Assistance 'Tomorrow is Ours'	2017	\$155,000 [NO FUNDING]	This project aims to provide Syrian Refugee children and adolescents residing in the Shatila refugee camp (southern Beirut) with educational and psycho-social care and attention that will enable them to overcome the sufferings and difficulties they have experienced during times of conflict and prolonged periods of being refugees.
51	JORDAN	Risk Education for Syrian Refugees	2017–2018	\$175,000 [PARTIALLY FUNDED]	The objective is to reduce risks of accidents resulting in death and injury from ERW among the Syrian refugee population through providing adequate knowledge of the dangers and threats posed by ERW and safe behavior upon ERW encounter. This shall be achieved through risk education and raising awareness on the contaminated environment the refugees will face upon their return to homeland.

52	SYRIA	Risk Education and Psychosocial Support – Capacity Building for Local NGOs	2017–2018	\$105,000 [NO FUNDING]	The scope of the project is to assist Syrian families inside Syria to cope with conflict-related traumatic and emotional stress as well as to instruct the local population on how to behave in ERW contaminated environment. To this end, the project activities entail provision of technical assistance and training to Syrian NGOs conducting risk education activities inside Syria, as well as provision of institutional capacity building of Syrian NGOs conducting psychosocial support activities in Syria.
53		Conflict Preparedness and Protection Project	2017	\$1,183,000 [NO FUNDING]	The overall long-term objective of the project is to reduce risks from cluster munitions, and other explosive weapons to a level where civilians can live safely and development is not constrained. It includes the implementation of a risk education and survey program, as well as the enhancement of physical safety measures at public infrastructure.
54	WEST BANK	Quality Assurance and Quality Control of West Bank Demining Program	April 2016–April 2017	\$555,869 [FULLY FUNDED]	The overall goal of the project is to provide Quality Assurance and Quality Control (QA/QC) of the demining works in the West Bank in order to certify their accordance with IMAS, national mine action standards and SOPs, and thus confirm that the formerly mined land no longer threatens the lives of local population.
55		Special Rehabilitation Centre Facilities in Bethlehem	2017–2018	\$500,000 [NO FUNDING]	The project goal is to equip an orthopaedic workshop (with tools etc.) in Bethlehem, and to establish a special centre for rehabilitation and manufacturing orthotics and artificial limbs and medical devices.

AFRICA					\$7,733,507
56	CABO VERDE	Integrated Telemedicine and e-Health Program	2017–2018	\$112,000 [FULLY FUNDED]	The project envisages the upgrade of existing and already operative telemedicine infrastructure as well as a needs assessment for further improvement in the health sector of Cabo Verde.
57	LIBYA	Capacity Support of Libyan Mine Action Center and Remnants of War in Securing and Eliminating Conventional Weapons	2017	\$1,000,000 [FULLY FUNDED]	The objective of this project is to strengthen national capacities that can address the challenges in the field of risk education and the challenges of mine/ERW clearance operations through the support of Libyan Mine Action Center.
58	WEST AFRICA	Capacity Enhancement of ECOWAS Early Warning and Response Directorate	September 2015– September 2017	\$6,021,507 [FULLY FUNDED]	West Africa as a sub-region that deals with overall insecurity and terrorist threats, ITF will implement this project in order to strengthen Economic Community of West African States (ECOWAS) Early Warning and Response Directorate. Through the project the Directorate will be equipped with the necessary capabilities and tools to be able to provide timely information on potential security threats for the prevention of future conflicts and insecurities beyond the West African sub-region.
59	ZIMBABWE	Mine Clearance Operations and Support to Rehabilitation in Zimbabwe	November 2016– September 2017	\$600,000 [PARTIALLY FUNDED]	The project aims to ensure that mines and other explosive weapons no longer expose civilians to unacceptable risk, or prevent economic, social and political development, and that mine victims receive rehabilitation services and income generating opportunities in Zimbabwe.

LATIN AMERICA					\$2,350,000
60	COLOMBIA	Capacity Building of Colombia's Mine Action Centre (DAICMA)	2017	\$2,050,000 [PARTIALLY FUNDED]	It is of utmost importance to strengthen Colombia's Directorate for Integrated Action Against Antipersonnel Mines (DAICMA) as the national mine action capacity through capacity building with the purpose of developing effective and resilient national capacities at the community and/or state level.
61		Enhancing National Capacities and providing Physical Rehabilitation to Children – Victims of Landmines in Colombia	2017	\$300,000 [NO FUNDING]	Due to insufficient local rehabilitation capacities, especially in rural areas and remote departments this project encompasses: (1) train the trainers approach to enhance national rehabilitation capacities, and (2) provision of physical rehabilitation services to a limited number of children – victims of landmines/ERW in Colombia.
TOTAL ALL REGIONS/COUNTRIES					\$48,097,839
